This BRIEF SURVEY is intended to help your P.O.A. Board of Directors determine what the residents in CB South want when it comes to recycling in this neighborhood. We started this investigation because we heard you tell us that recycling was a high priority for you. We then began to investigate how we could possibly make it more convenient, while saving you money!

First we looked at the possibility of creating a common recycling drop off location for recycling in CB South - and this was determined to not be feasible, as our research showed these locations to have a tendency to become very messy and often abused, which lead us to the conclusion that a common recycling location in CB South would not be the best use of P.O.A. resources and staff time.

Then we began to investigate the curbside recycling pickup alternatives for the residents of CB South, as a number of you indicated that depending on the price, you may be very interested in the convenience of curbside recycling pickup. The results of that investigation is simply this: In order to get all of you affordable (\$3-\$5 per month) and convenient curbside recycling, you would need to (via the P.O.A.) agree to enter into an exclusive contract with a trash and recycling provider, thereby lowering the price for both trash and recycling pickup and guaranteeing that price remains the same for at least the next 3 years.

Together we can reduce the price of trash and recycling pickup in CB South. As Individuals, the pricing alternatives are generally \$5-\$10 more expensive per month for both trash and recycling pickup in CB South.

Please take a few moments of your valuable time to help us better understand your needs and desires. Thank you!
